Almost everything is improved, with a bright, spacious interface, yet the learning curve is almost flat.. Microsoft Office 2016 for the Mac is the kind of upgrade I hope for but rarely get.. That's because all of the suite's essential features work as they always did, though with added options and conveniences.

It took five years from Office 2011's release to get this latest Mac office suite, but it was well worth the wait.. There's nothing so startlingly new that it will get in the way of In August 2016, Microsoft released an automatic update that replaced the old 32-bit code of Office for the Mac with 64-bit code.. The 64-bit version starts up faster, but otherwise it looks and acts like the earlier code, which was already an Editors' Choice for office suites.
